CANNON FIGHTS TO KEEP POWER

Will Not Give Up Without a Hard Struggle.

TRY TO EFFECT COMPROMISE

Regulars Force a Recess and Afterwards Pass a Motion Deferring the Speaker's Ruling on the Point of Order Raised Against the Norris Resolution—Nebraskan Says Insurgents Will Win.

Washington, March 19.—With his back to the wall, and fighting with the dogged desperation born of almost certain ultimate defeat, Speaker Cannon finally succeeded in staving off the final issue of the tremendous struggle in the house for a day. After forcing a recess of two hours that a compromise might be attempted, the regulars again marshaled a majority and passed a motion deferring the speaker's ruling on the point of order raised against the Norris resolution.

Nine insurgents went over to the regulars on the motion to recess, making the vote 161 to 151. Four more joined them in the vote to defer the speaker's ruling. There were other changes and that ballot resulted 164 to 150. Mann of Illinois, a regular of regulars, voted with the allies, declaring that he wanted to have the row settled at once.

Every one of the insurgents declared, however, that they were simply voting to postpone the inevitable in order to give the regulars time to propose a compromise, and not one of them renounced his allegiance to the cause of the allies.

Representative Norris said: "The fight will be won. This postponement does not detract from the advantage gained by the insurgents. I have no criticism to make of any insurgent who voted to postpone. The only purpose was to give another opportunity for compromise."

Representatives Volstead and Miller of Minnesota, insurgents, who voted to postpone, both declared there was not one of their number who had yielded an inch, or who would consent to a compromise that would permit the speaker to be a member of the new committee on rules.

Representative Hamilton Fish of New York said: "We will permit the new committee to be named by the Republican caucus, but we will not accept the speaker of the house as a member of the committee. The insurgents are a unit on this."

Hopes for a Compromise. Representative Tawney, who marshaled the regular forces in the day's battle, expressed the hope that some sort of a compromise would be effected. "We are endeavoring to reach a compromise," he said, "and I am hoping for the best."

Anything that will not give the insurgents and Democrats an undisputed and unqualified victory will be satisfactory to the regulars as a compromise. However, their chief hope is to effect an agreement that will save Speaker Cannon the humiliation of being refused membership on the new committee on rules. This the insurgents declare they will never concede.

Speaker Cannon and his followers have been in tight holes before. A year ago they faced almost certain defeat in the first struggle over the rules, but by the aid of Democrats, brought to them by Representative Fitzgerald of New York, they held command of the situation. Fitzgerald has not figured prominently in the fight of the past twenty-four hours. It is reported that he will again come to the rescue of the speaker and that he can rally enough Democrats under his leadership to save the day for the regulars.

Every kind of pressure known to politics and legislative tactics is being brought to bear on insurgents to force enough of them into line for some sort of compromise acceptable to the regulars and that also leaves room for doubt as to the result. It is said, but also denied, that President Taft is taking a hand in the situation and that the administration influence is in with the regulars.

Black Hand Squad For Chicago. Chicago is to have a foreign police squad. Twenty-five men will be examined in the Sicilian language, and all who pass that test and the physical examination will be put to work. This plan has been evolved by Chief Stewart and after consideration of a number of schemes to provide detectives to work on the Black Hand and other Italian murder cases which have proved impossible of solution by the regular police force.

England's Great Loss. The rejection of the budget by the house of lords in the preceding parliament cost Great Britain in loss of revenue \$142,500,000 in the current financial year, according to a statement made by David Lloyd-George in the house of commons the other day. The chancellor of the exchequer added that it was impossible to say what proportion of this loss could be ultimately recovered.

MISS GOULD'S WEDDING CAKE.

Georgian Court, at Lakewood, to Be Reproduced in Ice.

There was some excitement in the School of Applied Design For Women, at New York, when it was learned a short while ago that one of the girls there was designing the wedding cake for Miss Marjorie Gould, who will marry A. J. Drexel, Jr., on April 19 in New York. Probably Miss Gould was as much surprised as the school to learn this, for the commission was originally given to a caterer.

Miss Gould declared that she wanted a reproduction of Georgian Court, the Gould home at Lakewood, represented in the icing. Apparently that was somewhat beyond the caterer, who immediately sought the school, and the commission was turned over to one of the young women there.

Two designs of Georgian Court were made and sent in. Soon that per-

MISS MARJORIE GOULD.

sonage returned with the news that Miss Gould had changed her mind and wanted also a model of Lyndhurst, the home of Miss Helen Gould, upon the mammoth cake. After further consultation the caterer announced that there were to be three cakes rather than one. The three were to be one on top of the other underneath an arch. At the bottom was to be Lyndhurst, and above that, on two shelves, as it were, Georgian Court, and then a temple of love for the top.

HELPING GOVERNMENT SAVE.

How "A \$500 Clerk" Economizes on Ink and Lead Pencils.

President Taft's advocacy of economy in public expenditures has struck a responsive chord in an individual signing himself "A \$500 Clerk," who claims to have saved the government sundry small amounts during the last year by the careful use of ink and lead pencils. He expressed the hope for long life for "this economical administration." The letter was addressed to Secretary MacVeagh in the following words:

"During the past year, by omitting to cross my 't's' or dot my 't's,' I have saved the government 2 cents in ink. Will you please add this to my salary? I am now using my lead pencils down to half an inch. I hope in this way to save another cent. Long live this economical administration."

"I am short of paper or I would write a longer letter. We are one year nearer the poorhouse."

PRATT BUTTONS ON SALE.

New Scheme of Philadelphia Street Car Strikers to Get Money.

It was reported the other day at the headquarters of the various labor unions in New York city visited by the committee of the striking motormen and conductors in Philadelphia which went to New York recently to raise money for the strikers by hiring Italian organ grinders to furnish street music that a new device to raise money had been put into effect. This was the selling of Pratt buttons, each having a likeness of C. O. Pratt, the strike leader. Thousands of these buttons have already been sold at a nickel each.

Complaints were made that thrifty Italians who were not engaged by the committee were making extra money by giving out that they were playing for the Philadelphia strikers. They had made several good hauls of quarters and half dollars before the plot was discovered.

ORIGIN OF BERIBERI.

Scientists Found Malady Comes From Practice of Polishing Rice.

The theory that beriberi has its origin in the practice of polishing rice was practically accepted by the Far Eastern association medical conference at Manila the other day. Polishing removes the skin containing phosphorus.

Drs. Fraser of the Federated Malay States, J. de Haan of the Netherlands and Hans Aron of Manila reported a series of experiments covering the use of polished and unpolished rice. All agreed as to the results of the experiments, which showed that the disease was noninfectious and noncommunicable.

C. W. FAIRBANKS.

Refuses to Discuss the Vatican Incident.

FAIRBANKS KEEPS SILENT

Refuses to Talk About the Vatican Incident.

New York, March 19.—Former Vice President Fairbanks, who has arrived here from his European tour, seemed glad to get on American soil again and anxious to fill his engagements here as soon as possible and proceed home.

"By the time I get back to Indianapolis," he said, "it will have been just about a year since I left. It was on March 22 last year that I departed, and I will soon be there once more."

"Of all the cities of the many countries I visited while abroad, none of them to my view, can outdo Indianapolis," Mr. Fairbanks added.

"While in Tokyo I had a chat of two hours with the emperor, and although I am not at liberty to give the details of the conference, I can assure America that Japan is one of the best and staunchest friends we have," said Mr. Fairbanks.

"America need have no fear of Japan's intentions toward this country. I know they are genuinely friendly."

Mr. Fairbanks would not discuss the incident of the Vatican at Rome withdrawing an invitation for him to meet the pope. He was visibly perturbed when the subject was mentioned and said quite positively that he would not discuss it in any of its phases.

ANNOUNCED BY PRESIDENT TAFT

Completion of a Trade Agreement With France.

Rochester, N. Y., March 19.—President Taft announced here that a complete agreement had been reached with France on all tariff differences and that at Albany he would sign a proclamation giving to France the 25 per cent reduction of rates provided for in the Payne-Aldrich bill.

President Taft received a long cipher dispatch from Secretary Knox conveying the contents of a cablegram from France which indicated that the proposition made by the United States had practically been accepted. France had agreed with the United States on 96 per cent of imported articles and in lieu of an agreement on the remaining 4 per cent was willing to grant still further concessions in the list already agreed to.

Because of the high increase of duties on champagnes it had been predicted that a tariff war with France was almost certain.

Although the situation seems all but hopeless President Taft has not given up the idea of averting a tariff war with Canada. He has invited to meet him in Albany, W. S. Fielding, the Canadian minister of finance; Henry M. Hoyt, counselor of the state department, and Charles M. Pepper, tariff expert of the department of commerce and labor, will come on from Washington to be present at the conference.

President Taft at first invited Sir Wilfrid Laurier, the Canadian premier, to the conference, but the latter was unable to come. Thus far Canada has shown a disposition to "stand pat" that has all but put an end to any further negotiations. The president is making a last effort, however, to reach an agreement with the Dominion government.

Doctor Killed by Train.

Mason City, Ia., March 19.—Dr. W. W. Kline of Louisville, Ky., a prominent tuberculosis expert, fell from a passenger train while passing between two coaches and both legs were cut off above the knees. The accident occurred in the yards at Rockford Ia. Kline died from the shock.

Seeding in Western Canada.

Winnipeg, Man., March 19.—The warm weather continues in Western Canada and old timers say it is the warmest March on record. Seeding is already under way in many parts of the West, the earliest in twenty-five years.

VAN HISE AND WALLACE TALK

Educator and Editor Address Conservationists.

SPEECH BY DR. H. W. WILEY

Proves to Be One of the Most Interesting and Entertaining Delivered to the Delegates to the First Minnesota Conservation Congress—More Than Three Thousand People Listen to the Pure Food Expert.

St. Paul, March 19.—The fourth day was the last day of the first Minnesota conservation congress. In the morning "Forestry and Mines" was the subject discussed. W. A. McGonagle of Duluth, president of the Duluth, Missabe and Northern road and one of the best informed men in the state on matters pertaining to the mining of iron ore, presided.

The committee on arrangement was fortunate in getting Henry Wallace of Des Moines to take the place of Gifford Pinchot at this session. Mr. Wallace is the editor of Wallace Farmer, an able speaker, and a man in thorough sympathy with the conservation movement.

Practical forestry, reforestation, forest conservation and Minnesota soil and mineral resources were some of the subjects treated in the morning.

"Minnesota's Soil and Mineral Resources," was the subject of an address by Dr. Charles R. Van Hise, president of the University of Wisconsin.

"Drainage and Water Power" were handled in four addresses at the regular afternoon session, presided over by M. M. Williams of the university board of regents.

"The Conservation of Human Life" was the subject of a talk which was eagerly awaited by the medical profession of St. Paul and Minneapolis. Edward T. Devine, professor of social economy in Columbia university, delivered the address. Professor Devine has an international reputation as a social economist.

The first conservation congress did not pass into history without appropriate ceremonies. Governor Eberhart, who planned the congress and who opened the first session last Wednesday presided when the final adjournment was taken.

Congress a Grand Success.

If any lingering doubts remained that Minnesota's first Conservation and Development congress is a grand success they were dispelled after the sessions of the third day. The address of Dr. H. W. Wiley, chief of the bureau of chemistry of the department of agriculture; the splendid programme, planned and executed by the women of Minnesota, and the closing good roads session are features of the congress that will linger long in the memory of those who were privileged to be present.

The banner crowd of the convention greeted Dr. Wiley when he rose to speak, the official estimate placing the number present at 3,200. The two programmes of the afternoon merged into each other without intermission and Dr. Wiley spoke to the same audience that came to hear and did hear Mrs. Caroline Bartlett Crane.

Dr. Wiley spoke on "Pure Food and Its Relation to Public Health and Conservation." He was cheered to the echo when he came to the front of the platform following a brief introduction by Dr. Bracken.

For straight common sense, unquestioned sincerity and profound grasp of his subject Dr. Wiley's address stands apart from all others delivered before the convention. He does not aim to please his audience; he aims to instruct them. With a wealth of information at his command relating to pure food he presented in concise, logical and convincing manner the message that he came from Washington to deliver to the people of Minnesota.

Many Old Notions Jolted.

Many an old notion regarding quality and quantity of food received a severe jolt from the pure food expert. "Some people claim to boil milk to purify it," he said. "Nonsense. If milk is pure it does not need purifying. Maybe boiling dirt purifies it, but I'd just as soon have my dirt raw."

Dr. Wiley swept aside the old theory that one should leave the table hungry. "Eat a little more than you need," he said. "You never can tell what will happen. I have never had any time for an engineer who would start on a trip with just enough coal to carry him through if nothing unforeseen occurred."

"Understand me—I don't mean eat all you can contain. That would be like an engineer that filled his boilers full of water and left no room for steam."

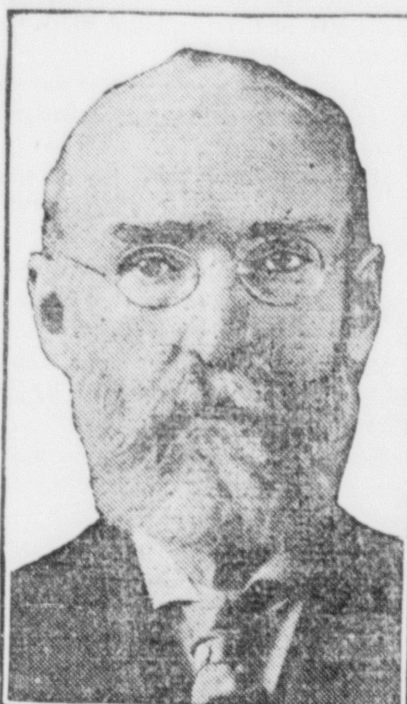

With such homely illustrations as these did Dr. Wiley speak directly to his audience. There was no one in the big hall that did not understand his meaning in every instance.

"It is not the underfed men and nations, but the men and nations who eat, that are in the vanguard of progress. The English, the Americans and the Germans are good eaters and they lead the world."

Dr. Wiley believes that liberal nutrition is necessary to health. "There is

not one of us here today," he said, "who has not had in his or her system the germs of typhoid and other diseases. They did not have the fever because their bodies were strengthened and prepared by good food and plenty of it. Germs cannot live in healthy tissue."

Real Treat of the Congress.

It was generally conceded by delegates that Dr. Wiley's talk on pure food was the real treat of the congress. He resumed his seat with hearty applause resounding through the hall.

The special session of the afternoon was in charge of the women of Minnesota. The leaders in thirty-five organizations, fraternal, social, charitable and religious, were present on the stage.

The success of this session was largely due to the untiring work of Mrs. Perry Starkweather. The chairman of the meeting was Mrs. C. G. Higbee, president of the Minnesota Federation of Women's Clubs.

Few women attended the meeting devoted to the cause of good roads. In many ways it was one of the most important gatherings of the convention. About 1,500 men were present in the hall. All of them were interested in the subjects under discussion.

The gathering of the conservation congress has been made the occasion for the meeting in St. Paul of the Minnesota Good Roads association. Sessions were held morning and afternoon. In the evening the delegates to the meeting suspended their work to listen to the addresses at the Auditorium. The speakers were all men of wide experience in the field their addresses covered and included George W. Cooley, state highway engineer; George M. Palmer of Mankato; M. O. Eldridge, senior assistant in road management in the department of agriculture; Robert C. Dunn of Princeton and Chairman M. J. Dowling.

PASSENGER TRAIN RUNS INTO ENGINE

Superintendent Steward Hurt at Willmar, Minn.

Willmar, Minn., March 19.—Superintendent Steward of the Willmar division of the Great Northern railway was carried unconscious from the wreck of the Great Northern fast mail in the Willmar yards. He received two serious gashes in the lower part of the neck. No report on his condition was obtainable from the residence, where he was taken. It is known he is suffering intensely.

Superintendent Steward was in the private car of General Manager Gruber of the Great Northern, who, with Assistant Superintendent Emmons was on his return home from a month long battle with the snowblades in the mountain division of the road.

The Great Northern fast mail, east bound, No. 28, whirled into the Willmar yards and was supposed, it is said, to have a clear track.

It smashed into a switch engine, which was busily engaged shoving dump cars into the yard switches. The crews of both trains jumped. "The switch engine and tender was telescoped and smashed into a jelly by the leviathan mail train engine. The mail engine was listed from the track and continued alongside the dump cars for several rods before toppling over. The wreckage covered the entire yard at that point.

The special car containing the three railroad officials was attached to the rear of the fast mail. When the crash came they were hurled against the front end of the car, all of them receiving serious bruises. Superintendent Steward was picked up and carried to his home unconscious, blood streaming from his neck.

Rail Embargo Raised.

Bismarck, N. D., March 19.—The Northern Pacific has resumed its traffic westward, the damage done by the floods having been repaired. The Missouri river has resumed its normal condition and no further reports of losses have been received.

TAFT APPEALS TO CONGRESS

REFUSED TO TAKE A BRIBE

Then Milk Inspector Says He Was Fired Upon.

Milwaukee, March 19.—Direct charges of attempted bribery and murder against a city official have been made to District Attorney A. C. Backus by C. J. Steffen, one of the milk inspectors of the health department.

Mr. Steffen avers he was offered a bribe of \$25 less than a month ago by a person in charge of an important city office for the almost direct purpose of getting Steffen to condemn the milk retailed by a certain West Side milk company, of which, he asserts, the alleged briber is desirous of gaining the controlling management.

According to Mr. Steffen, the briber desired the milk company's product condemned, expecting an unfavorable report from the health department would ruin the milk company and then the attempted briber could buy the business at a low price, reorganize it and conduct it as a money making enterprise.

Two hours after the bribe had been offered and rejected, so Mr. Steffen said, he was shot at through a window of his room. Mr. Steffen exhibits a vest with a hole near the heart, and on his body he said there is a scar as evidence of the bullet's course.

MISSOURI RIVER VERY HIGH

Floods the Bottom Lands Around Schafer, N. D.

Schafer, N. D., March 19.—The Missouri river has reached the highest mark ever known this early in the season. A period of unusually warm weather, accompanied by chinook winds, has prevailed for a fortnight. An ice gorge formed, extending from the mouth of the Yellowstone for thirty miles around the big bend. The flood waters were dammed back and the bottoms filled from hill to hill.

Much property has been destroyed and a large quantity of logs and lumber carried away. One homesteader awoke in the night to find the river about his bed and his cattle drowned in the stable. He escaped by clinging to one of his horses. The cables along which the many ferries between McKenzie county and the surrounding counties are run have been carried off and telephone connections severed, leaving this section without any means of quick communication.

The ice gorge broke, and a gasoline ferry was put on at Williston. This marks the earliest date on record for navigation of the upper Missouri.

Child Crushed to Death.

Des Moines, March 19.—Harold Tarr of Oskaloosa, aged seven years, was crushed to death when he tried to climb on the tongue of a wagon drawn by a threshing outfit. He fell under the wheels and died almost instantly.

Boy Fatally Wounded.

Madella, Minn., March 19.—While Merle Sprague and a companion were cleaning a 22-caliber rifle it was accidentally discharged. The shot opened an artery in Sprague's thigh and inflicted a wound from which he died.

Explosion Kills Three Men.

Pittsburg, March 19.—Three men were killed by an explosion in mine No. 2 of the Wear Coal company. Rescuers brought out all the other men uninjured.

Wants Measures He Recommended Enacted Into Law.

TO FULFILL PARTY PLEDGES

Expresses the Hope That the Party Would Show That It Has the Sense and the Discipline to Meet Its Responsibilities—Speech of the Chief Executive at Rochester, N. Y., Warmly Applauded.

Rochester, N. Y., March 19.—In his address before the chamber of commerce here President Taft made an earnest appeal to congress to subordinate and sacrifice individual opinions in order that the measures he had recommended in fulfillment of party pledges shall be enacted into law. He expressed the hope that the party would show that it has "the sense and the discipline" to meet its responsibilities.

The impression had got abroad that the president might have something to say with regard to the acute situation in the house of representatives at Washington, but this was his nearest reference to the subject. At one point of his speech, which was devoted entirely to the legislation he had recommended in the past few months, the president further declared:

"If this congress is to be treated as a Republican congress, these things ought to pass in fulfillment of party pledges. After this is done, it does not matter what happens at the next election."

Country Would Be Grateful.

"It will have done something the country will be grateful for, whether it thinks it ought to express this gratitude in the immediate future or not."

The president summed up the things which he declared had caused some of his advisers to characterize him as a bad politician. In the first place, he said, there was the tariff law and a new tariff bill always defeats a party. In the second place had come the corporation tax, bringing with it the enmity of everybody directly or indirectly interested in the more than 400,000 corporations affected by it. In the third place there was the "aliased" postal deficit which had been charged to the carrying of magazines and periodicals at 1 cent a pound. That was "bad politics because it arrayed all the magazines and periodicals against the administration." In the fourth place congress only reduced the duty on print paper 30 per cent, instead of putting it on the free list. This offended the newspapers. And last of all, the postal savings bank bill had turned all the bankers against the administration.

SWITCHMEN GET A RAISE

Arbitration Board Boosts Wages of Chicago Men.

Chicago, March 19.—An increase in wages of 2 cents an hour, allowance of time and a half for all overtime and a hearing within three days when threatened with dismissal were given the switchmen in the railroad yards of Chicago by the Illinois state board of arbitration. About 4,000 men, members of the Brotherhood of Railway Trainmen, are affected.

F. O. Melcher, chairman of the managers' committee, gave out a statement concerning the switchmen's decision, saying:

"The award of the state board in the settlement between the switchmen and thirteen railroads involved means an increase in wages of about 5 per cent. The railroads feel that the evidence submitted to the board fully sustained the contention that the wages heretofore paid were liberal and should not have been increased. While disappointed at the high award they accept the decision as final."

Youth Commits Suicide.

Deadwood, S. D., March 19.—Disappointed in a youthful love affair, Henry Cassavant, seventeen years old, the son of a well-to-do farmer near St. Onge, locked himself in the sitting room of a neighbor's ranch, where he was employed, took a seat in a rocking chair and then blew out his brains with a shotgun. The body was discovered several hours later.

Favorable Action Anticipated.

Washington, March 19.—The house has already passed, and the senate committee on military affairs has recently reported favorably by unanimous vote a bill providing that the federal government accept from the Woman's Relief Corps without pay the so called Andersonville prison parks in Georgia. Favorable action is anticipated.

Last of Corn Crop Saved.

Estherville, Ia., March 19.—Practically all of the corn which has been in the fields all winter has been husked and is in better condition than that put in cribs last fall. Farmers are plowing and a few sowing wheat.

POLITICAL SIDE LIGHTS

As a result of the move for reapportionment "senators from 30 northern counties will come to the next session of the senate pledged to vote themselves out of office," is the way a telegram from St. Cloud reads, which shows how strong the sentiment is in Northern Minnesota for just representation. The object of the move is to get for the northern counties the benefits of reapportionment as soon as possible. If the senators elected at the coming election do not resign they will hold over for the 1913 session, and in that case the representation given the northern portion by the 1911 legislature would not go into effect until four years after it is passed. L. W. Bills, who represented the 53d district in the lower house says: "As a result an appeal has been made to the patriotic sentiment of the men who are seeking election to the next senate and they have unanimously agreed to resign, it is said, at the close of the session of 1911. This will affect the counties of the ninth, sixth and eighth of the congressional districts, including the counties of Kittson, Roseau, Marshall, Beltrami, Koochiching, St. Louis, Lake, Red Lake, Norman, Mahanomen, Clay, Becker, Wilkins, Otter Tail, Polk, Aitkin, Anoka, Carlton, Cook, Isanti, Itasca, Kanabec, Mille Lacs, Pine, Benton, Cass, Crow Wing, Douglas, Hubbard, Meeker, Sherburne, Stearns, Todd, Wadena and Wright."

Hon. I. W. Bouck, of Royalton, has filed as a candidate for the legislative nomination. It is understood that Messrs. Brown and Kling will also file, and that Commissioners J. J. Jacobson of Elm Dale, will tackle the position. This should insure a lively contest, with prospects of additional entries—Little Falls Herald.

CALHOUN'S CHINESE GUARD.

Four Orientals Will Stick by Minister Till He Reaches Pekin.

When W. J. Calhoun, the new United States minister to China, left Chicago the other night for the Orient he was attended by an escort of four Chinese, assigned by the imperial government at Pekin to look after his safety and comfort until he sets foot on Chinese soil.

"I don't know when I am coming back. I am going to stick to the post until I have either decidedly succeeded or utterly failed," said Mr. Calhoun. "I shall stay until my work is finished."

Russia's New Stamps.
Only a few months ago a new issue of postage stamps was put in circulation in Russia. Another new issue was recently announced, and the stamps will commemorate the three hundredth anniversary of the Russian throne in 1613. Hitherto the ordinary Russian postage stamps have been rather small and of delicate workmanship. The forthcoming commemorative issue, however, will be of a larger type, and they will bear the portraits of the house of Romanoff, male and female.

How Good News Spreads
"I am 70 years old and travel most of the time," writes B. F. Tolson, of Elizabethtown, Ky. "Everywhere I go I recommend Electric Bitters, because I owe my excellent health and vitality to them. They effect a cure every time." They never fail to tone the stomach, regulate the kidneys and bowels, stimulate the liver, invigorate the nerves and purify the blood. They work wonders for weak run-down men and women, restoring strength, vigor and health that's a daily joy. Try them. Only 50c, satisfaction is positively guaranteed by all druggists. 115

A Top Coat for the Changeable Days of Spring

Sincerity Clothes

You'll get a heap of satisfaction out of a light weight coat or a cravenette: not only because one is "swell", but it is also the best kind of protection in these days of alternating warmth and chill. We say "A SINCERITY" because we know they are tailored right in every particular and the patterns are mighty attractive.

Not costly either—\$15.00 to \$25.00.

RING SIGNS ARE MULTIPLYING

rtridges Were Heard Today and
Robins Were Seen Some
Time Since

Father Time must have made some
stake in his calculations, or else
accidentally detached about four
aves of his calendar at once. Such
ather as this was seldom seen, if
er before, in north central Minne-
a. From the very commencement
the month the weather has been
enormously fine and has resembled
e April or May more than early
arch.

The frost is already out deep
ough to plow in nearly every gar-
n, and in many places the ground
dry enough to work. Perennial
s, golden glow and other perennials
becoming green, painters are
rking out of doors and other signs
opening spring, including house
aning, are abroad in the land.

Several robins have been seen, the
ows have returned to their sum-
mer haunts and this morning par-
dges were heard drumming
rily. If Brainerd is not in the ba-
na belt, it would be hard to tell
at is.

With a continuance of this weath-
it will only be a question of a few
ys until crocus and other wild
vers will be in bloom.

NEW WRECKING OUTFIT

Wrecking Crane and Complete Outfit
to be Kept in Brainerd
Hereafter

Hereafter there will be a powerful
steel wrecking crane and a complete
wrecking outfit kept in Brainerd.
This outfit will be for use on
the Second district of the Lake Su-
perior division of the Northern Pa-
cific and the Minnesota & Interna-
tional railways. The new machine
and its accompanying outfit, will be
in charge of Sam Betts, who was for
several years at Muscoda, in charge
of car repair and wrecking work at
the big mill. The outfit, in addition
to the big crane, consists of a tool
car, a bunk car, for the use of the
men of the wrecking crew, and a
flat car or two loaded with wheels,
trucks, blocks timbers, etc. The
bunk car is not yet completed, but
was taken to Deerwood Friday morn-
ing to pick up some freight cars
wrecked on the siding, but before the
work was completed they were sum-
moned back to Brainerd to replace
the coaches derailed when the train
from Duluth was coming into the
city at noon. They were picked up
in short order and taken to the shops
to have the trucks repaired.

The wrecking outfit returned to
Deerwood today to finish its work
there. It goes from there to Aitkin
to pick up some freight cars.

SAW A FINE ROAD

Aitkin Resident Pleased With Road
Improvements Leading from
Brainerd to Country

The Aitkin Age says: Mrs. D. M.
Falconer went to Brainerd on Sat-
urday for a brief visit with Mr. and
Mrs. John Falconer of that city. Mr.
Falconer went down on the afternoon
train on Sunday and returned home
with Mrs. Falconer on the afternoon
train. Mr. Falconer was quite in-
terested in the improvements he saw
in the road leading out of Brainerd
toward Mille Lacs lake. Formerly
the road was a soft sand, making
hauling very difficult, but it has been
macadamized, and is now a fine
boulevard stretching out into the
country for quite a distance and giv-
ing the surroundings a look of thrift
and prosperity. Mr. Falconer says
this road is a great object lesson
concerning the value of good roads,
and he thinks Aitkin could do no
more beneficial thing for the town
and surrounding country than in
starting a movement looking to the
construction of such roads leading
out of the town.

Were Often Encored

As was expected, the members of
the Carleton College Glee club "made
good" in their return appearance
here Monday evening. They sang
because they liked to sing, and went
through their program with a dash
and vim that could not but keep the
auditors awake and interested. All
through the club displayed a marked
ability to interpret with feeling and
understanding.—Wilmar Tribune.

HE HAS SOME OLD PAPERS

Mr. Parker Has Interesting Souvenirs
of Early Days Here and
Elsewhere

R. Parker, the veteran Brainerd
merchant has some old documents of
interest. One is a certificate of
stock for one share in the Brainerd
Masonic Temple Association. The
date is Sept. 25, 1883, and Mr. Park-
er holds it as a monument to \$100
which was lost in the venture. The
Masons organized an association and
built a hall in connection with the
old Sleeper opera house on Broad-
way, near where Con O'Brien's store
is now located, and which was de-
stroyed by fire many years ago.

Mr. Parker also has a working
card from the Nashville Typograp-
hical union, issued in April 1871.
He worked there for some time be-
fore coming to Brainerd to work for
M. C. Russell, who started the Brainerd
Tribune, the pioneer in the city.
Mr. Parker also has a card from the
London Society of Composi-
titors, issued in the late sixties.
While in London, England, where he
learned the trade, Mr. Parker worked
in a shop which printed a large num-
ber of periodicals among them
being a naturalist's magazine. He
has frequently set the copy of such
eminent naturalists as Huxley, Dar-
win and Du Challa, and says that
their writing was sometimes some-
thing fearful. It came in on scraps
of paper, envelopes, written on both
sides, etc. It was then a frequent
thing for compositors, who all worked
by the thousand, to get an additional
allowance because of poor copy.

The fattest "take," he ever drew,
however, was at Nashville where he
drew \$69 per week for six weeks, for
work on railway schedules.

Sheet Music For Ten Cents

CHICKENS COME HOME TO ROOST

A Citizen of the Second Ward Calls
on Alderman Cardle to Help
Keep Chickens Yarded

Alderman Cardle has received the
following communication, signed by
"A Citizen," and he would like to
know who the writer is in order that
he may cooperate in helping "rid the
city of the pest." The letter says:
"I am writing you as I have en-
deavored to get the attention of our
own representatives from the Second
Ward, but without success, and it
has been suggested to me that you
would consider a complaint, if on
good foundation, and as this will af-
fect the city in general I appeal to
you. The Civic League is doing
good work and I am heartily in co-
operation with them, but as long as
the city allows chickens to run at
large it is a very great handicap to
overcome. In previous seasons I
have seeded my flower beds as many
as four different times and then had
to give it up in despair owing to the
chickens in the neighborhood, and as
spring is again here and we are an-

Will Move to Pillager

Parker Waite is not only an up-to-
date farmer who raises bumper crops
on his farm at Gull River, but also
one of Northern Minnesota's leading
contractors. He built several new
bridges in this vicinity last summer,
a large livery barn at Walker, the
State Sanitarium at Walker and a
residence for the fish hatchery at
Deerwood. He has purchased the
one acre lot on River St., north of
the Parsons 12 acres in Pillager
where he will build a \$3,000 resi-
dence this summer, and make the
coming metropolis of the Crow Wing
Valley his future home.—Pillager

DEMANDS ENFORCEMENT

Minnesota Federation of Women's
Clubs Demand Strict Enforce-
ment of Law

At the midwinter meeting held in
St. Paul, February 22nd, 1910, the
Minnesota Federation of Women's
Clubs unanimously adopted the fol-
lowing resolution:

Whereas, the legislature of the
state of Minnesota has passed laws
concerning gambling in all forms,
cigarette smoking and selling, the
sale of intoxicating liquors, the keep-
ing of houses of ill fame, or renting
of property for such purposes, and
the immoral traffic in women and
girls, and

Whereas, it is a notorious and ob-
vious fact that these laws are not en-
forced, but that instead, the law-
breakers are practically protected
and licensed by the municipal author-
ities, and

Whereas, the increase in crime and
immorality in the United States, as
proven by official investigation and
statistics, is so startling as to arouse
the gravest apprehension, therefore
be it

Resolved, that we, the Minnesota
Federation of Women's Clubs, repre-
senting over 10,000 women, many
the mothers of the present growing
generation, respectfully demand of
the governor, the attorney general,
and the other executive officers of our
state, that immediate steps be taken
to secure a rigid enforcement of these
wise laws, in order that our children
may be protected, may learn respect
for authority and may become a more
reputable and law-abiding people
than are we today.

A SKUNK FARMER

Stearns County Character Makes His
Yearly Raid on the Skunk Pas-
ture With Good Luck

The St. Cloud Times says:—"Rail-
road magnates clip their coupons at
stated times, members of the board
of trade build up "corners" on this
or that produce every now and then
to replenish their waning coffers, but
Peter Schmitt of this city better
known as "Luxemburg Pete" has a
more odoriferous source from which
he secures revenue every spring. It
is nothing more or less than a cave
on his farm south of the city which
has been the hang-out of a colony of
skunks for a number of years.

"Monday Peter thought it was
about time to make his trip to his
farm and he went prepared with a
big club and a barrel of water. He
took his place back of the entrance
to the cave and then poured in the
water. The skunks as they appeared
were quickly dispatched with the
club and in this manner thirteen of
the animals were waylaid. Since
their pelts are easily worth from
\$1.50 to \$2 Peter made a good day's
wages. He has done this for the past
four or five years."

TRAPPER'S RARE CAPTURE.

White Muskrat Caught in Swamp Near Caldwell, N. J.

James Marsh, who makes a business of trapping in the Big Tree pond, near Caldwell, N. J., captured an albino muskrat the other afternoon. The creature has pure white fur and pink eyes.

Old hunters and trappers, who have killed many hundreds of muskrats every spring for many years in the lowlands bordering the upper courses of the Passaic, Pompton and Rockaway rivers, say that they never before have seen an albino muskrat. The usual color of the rodents is brown, sometimes shading almost to black.

Marsh has spent the last two months hunting and during that time has secured more than 150 skins of the dark colored muskrats. Those, with the skins of several minks, skunks and possums, will net him about \$150.

ACTS DIRECTLY ON BAD KIDNEYS

Backache Simply Vanishes and Your Kidneys and Bladder Will Act Fine Again

DON'T HESITATE A MOMENT

Just a Few Doses Taken Now Will Regulate Your Out-of-Order Kidneys and Urinary System

If you take several doses of Pape's Diuretic, all backache and distress from out-of-order kidneys or bladder trouble will vanish and you will feel fine.

Lame back, painful stitches, rheumatism, nervous headache, dizziness, irritability, sleeplessness, inflamed or swollen eyelids, worn-out, sick feeling and other symptoms of sluggish, inactive kidneys disappear.

Uncontrollable, smarting, frequent urination (especially at night) and all bladder misery ends.

Feeling miserable and worried is needless, because this unusual preparation goes at once to the disordered kidneys, bladder and urinary system and distributes its healing, cleansing and vitalizing influence directly upon the organs and glands affected, and completes the cure before you realize it.

The moment that you suspect any kidney or urinary trouble or feel rheumatism pains, begin taking this harmless medicine, with the knowledge that there is no other remedy at any price, made anywhere else in the world, which would effect so thorough and prompt a cure as a fifty-cent treatment of Pape's Diuretic, which any druggist can supply.

You, physician, pharmacist, banker or any mercantile agency will tell you that Pape, Thompson & Pape, of Cincinnati, is a large and responsible medicine concern, thoroughly worthy of your confidence.

Only curative results can come from taking Pape's Diuretic, and a few days' treatment means active, clean, healthy kidneys, bladder and urinary organs—and no backache.

Adjustable Sentiments.

"When citizens acclaim you as their choice for high position what do you do?"

"I abide in a patriotic spirit by the wisdom of the common people," answered Senator Sorghum.

"And when they arise in resentment of something you have said or done?"

"I maintain a superior indifference to the clamor of the thoughtless multitude."—Washington Star.

CONFESSION OF A MILLIONAIRE

Admits Making Millions by Robbing the People.

IS REFORMING HIMSELF NOW.

Joseph Fels of Philadelphia Will Devote His "Swag" to Do Away With "Cursed System" That Made Him Wealthy—Only Way to Get Rich, He Says, Is Through Monopoly.

The spectacle of a millionaire telling his hearers that he made his millions by robbing the people, that all monopolies do, but that he had begun to recover his conscience and was going to devote his wealth to fighting the system which made it possible, was the unique entertainment provided by the City club of Chicago at its luncheon the other day. The speaker was Joseph Fels of Philadelphia, head of a soap company. He said he was a disciple of Henry George and would always remain a Single Taxer.

"You Are All Doing It." "We can't get rich in a lifetime nowadays," Mr. Fels said, "under the present system of things unless we do so by robbing the people. I have made my money that way, and my firm is still doing it. You are all doing it. Every one of your self made millionaires has done it. However, I want to say I have begun to recover my conscience, and I am going to devote my 'swag'—I like to call it that, for that's what it is—to doing away with the cursed system which makes it possible.

"If any of your millionaires feel the same way about it, for God's sake let's cross hands on it. I may be an oddity. It is unusual, though, for a man who has made his money by robbing the people through a monopoly to be called a curiosity. It is also a curiosity to find a man after nearly fifty years of monopoly-mongering to admit it and undergo a change of heart. But I am sincere."

"How are you getting rid of your robber wealth?" Mr. Fels was asked. "For one thing," he replied, "I am interested in spreading the single tax propaganda throughout the world. The movement is active in the United States, England, Canada, South Africa, New Zealand, New South Wales, Denmark, Sweden and other nations."

Wants All to Have an Equal Chance. "If we had an educational fund of \$1,000,000 a year we'd upset the world in twenty years as to economic conditions. I will be one of twelve to supply the funds."

"I intend to use my money to force into use land that is being held for the increment. I do not believe in speculation in land values. It is an enormous swindle. As a business man and landowner I have taken advantage of monopolies which private ownership of lands gave me, lands which rightfully belong to many instead of the few. Perhaps I would have made a fortune despite the laws, but I want to bring into operation conditions of equal manhood, conditions under which all have an equal chance."

Mr. Fels said he did not mean that he and Rockefeller and Morgan and Carnegie had been personally dishonest in the accumulation of their fortunes.

"John D. Rockefeller," he continued, "is a mild, harmless man with a mistaken ideal, but personally honest. None the less he is a robber."

These hard night coughs of the children? What shall you give them? Just what your mother gave you, and just what her mother gave her! In some families, Ayer's Cherry Pectoral has been the only cough remedy. Do as he says.
